

The background features a dark blue gradient with several glowing, curved lines in shades of cyan, magenta, and white. A pattern of small, faint dots is visible, particularly on the left side, creating a sense of depth and movement.

Tokenomics

\$CYMI is a utility token used to reward use or consumption.

\$CYMI enables to connect all rewards points and loyalty programs available in the global marketplace. It can eventually be used as a compensation token for good behavior in the community. As a purely transactional cryptocurrency, \$CYMI is also suitable for use in exchange and other payment applications.
